

## Chipboard Screws

Coarse-threaded chipboard screws are designed to provide maximum grip and minimum stripout, holding securely in softer timber and resin-based materials like chipboard.

Chipboard screws and particleboard screws are self-tapping, eliminating the need for predrilling.

Selected chipboard screws feature a ribbed head, to assist with automatically clearing debris from the self-tapped hole when driving and countersinking.

### Zinc Chipboard Screws

Yellow Zinc; Phillips Drive; Countersunk Head Ribbed

Code	Gauge x Length	Driver Bit	Embed min.	Qty Inner	Qty Outer	1+	500+	1000+
